matias

Product overview

Introducing Matias

A leading innovator in the keyboard and mouse industry, Matias enjoys a strong reputation in the Mac and PC community.

Catering to a diverse user base, our product line offers high quality solutions for everyone, ranging from casual users to professionals, including ergonomic and specialised options like programmable and half keyboards tailored to unique needs.
Matias products, which seamlessly blend with Apple's design aesthetics, are available online and in stores worldwide. Designed to meet the highest standards, Matias products are built to last and enhance productivity in style.

Ideal Customer Profile

Apple Enthusiasts: Matias has a strong appeal to users of Apple products, particularly MacBook and iMac users. They appreciate the compatibility and seamless integration with Apple devices, as well as the superior typing experience offered by Matias keyboards.

Keyboard Enthusiasts: Customers who are passionate about keyboards and value the tactile feedback, accuracy, and durability of mechanical keyboards are drawn to Matias products. They appreciate the craftsmanship and attention to detail in Matias keyboards, including features like ALPS mechanical keyswitches.

High Quality Seekers: Customers who prioritise quality and durability in their purchases are attracted to Matias products. They appreciate well designed, reliable, and long lasting equipment that can withstand challenging environments, including extensive travel.

Discover the ultimate in typing comfort with Matias ergonomic keyboards. Engineered to support your natural hand position.
